STORY OF THE OPERETTA

Frances Marie, daughter of Cyrus Templeton, the light-house keeper, and captain of a yachting crew of Sailor Maids, is celebrating her eighteenth birthday and launching of her new yacht.

Edward Dover, an old friend and playmate sweetheart whom she has not seen for eight years, is to pilot the new yacht on its first voyage across the bay. Edward knows nothing about yachting and detests the ocean. When he arrives he is mistaken for a caterer whom they have employed to serve at a dinner party in the evening.

STORY OF THE OPERETTA

(Continued)

Because of his interest in Jeanette, a friend of Frances Marie, and his horror for the water, he does not reveal his identity. Edward is aided in his plot of deception by David Kern, a yachtsman who comes with a message from the caterer.

David in turn is mistaken for Edward by Frances Marie, and before he can explain, the real Edward prevails on him to assume his name and sail the yacht. David refuses but is drawn into the scheme by Edward's clever planning and held there by his interest in Frances Marie.

STORY OF THE OPERETTA

(Continued)

The climax comes when David learns Frances Marie's engagement to Edward Dover is soon to be announced. The true identity of both is revealed and Frances Marie and her friends are shocked at the discovery. After much explaining the young men clear themselves and win the girls with father's blessing.
