

September 17, 1926.

Mr. Allen A. Peal,
Western University,
Kansas City, Kansas.

Dear Mr. Peal:

I hope that the difficulty between yourself and Dr. Peck may not be such as to influence you against me, as you must know I refrain from interfering in the conduct of state institutions or schools unless compelled to do so. Of course, I know nothing as to the difficulty referred to in this matter, but I hope that you will not go so far as to attach personal difficulties to the administration.

I thank you for your frank letter and can assure you that confidence are not violated in this office.

Yours very truly,

Governor.
