

March 29, 1926

Dr. F. Jesse Peck, Pres.,  
Western University,  
Kansas City, Kansas.

My dear Peck:

Your favor of the 27th instant received.

The trip to Kansas City was thoroughly enjoyed, both by Mrs. Paulen and myself, and I trust we may have the pleasure of being with you on some future occasion.

I have noted carefully that part of your letter relating to the financial condition of the University, and can very readily appreciate what you say concerning the appropriations necessary in order that your school may function in the proper manner. The Board of Administration has been, and I am sure will continue to do, everything they possibly can so that you may finish this year without any deficit whatever. I will go over the matter with the Board and see if it is possible for them to assist you further with funds from the Special Fuel Appropriation.

Thanking you for the many courtesies extended to Mrs. Paulen and myself during our recent visit to your institution, and assuring you of my willingness to be of service to you in this matter, I am

Yours truly,

Governor.
