KANSAS CITY, KANSAS

July 14, 1925.

Governor Ben. S. Paulen,
Topeka, Kansas.

Your Excellency:

I have received word from the War Department that they have redetailed Sgt. Walter B. Williams for duty here this year which pleases all of us very much.

Sgt. Williams has been with us several years and this is the second time he has been relieved.

I owe his redetailment to the persistent efforts of Senators Capper and Curtis and the never tiring spirit of Congressman Anthony. I took the matter up with them immediately and was successful in having our wishes granted without much delay. These gentlemen have been unusually kind to me and this institution.

I think it means much to the institution to have the service of Sgt. Williams as instructor in Military Tactics and Science to remain at Western University supervised by Captain Mitchell. In our arsenal, we have one hundred and thirty high- powered rifles, six target guns and fifty thousand rounds of ammunition.

I wanted you to know how very kind Senators Capper and Curtis and Congressman Anthony are to us in using every ounce of influence possible to aid us in this institution.

Very truly yours,

F. J. Peck, Pres.
