THE GENERALITE, 1940

GENERALITE

DEDICATION

IT HAS been said that there are no more new frontiers; that there are no more pioneers. To a certain extent that statement is true. Yet to the expanding mind there are always new mental frontiers. Situations which, to the initiated are merely commonplace, are full of terrors for the novice. It is for that reason that we pause here to pay a tribute to one whose tact, patience and courage are being tried to the utmost at all times—the Student Nurse.

Steadily, quickly and unperturbed, the Student Nurse goes about her duties, garnering knowledge and experience every day, training herself to minister to the wants of the more unfortunate of her fellowmen; to comfort the afflicted, to soothe the brows of those who are suffering; to teach the ignorant how to apply the principles of hygiene and sanitation so that everyone may enjoy the benefits of the more abundant life.

To this symbol of modern life, this young apostle of good health and good will—one of the last remaining pioneers of our generation —The Student Nurse—we, the members of the Class of 1940 proudly dedicate this first annual volume of "The Generalite."

DR. PERCY C. TURNER

Superintendent, General Hospital No. 2

DR. TURNER, a native of Independence, Missouri, was born in 1894. He received his elementary and high school education in that city, and George R. Smith College, Sedalia, Missouri. His advanced work was taken at Pittsburg, Kansas, and at the University of Minnesota. Five years were spent teaching in Illinois and Missouri. At the

end of that period he entered Meharry Medical College and graduated four years later.

He chose to spend his internship at General Hospital No. 2 and began his work here in 1925. In 1926 he was appointed head of the Pathological Department. He remained in this capacity until 1933 at which time he was appointed Superintendent of the Hospital.

First row, left to right: Dr. E. A. Walker, Dr. E. A. Gilkes, Dr. T. A. Fletcher, Dr. F. E. Dibble, Dr. L. M. Tillman, Dr. C. A. Kane, Dr. G. W. Brown, Dr. A. D. Bradbury. Second row, left to right: Dr. L. W. Turner, Dr. P. C. Turner, Dr. V. O. Wilkinson, Dr. M. C. Lewis, Dr. L. P. Richardson, Dr. J. R. Williams, Dr. D. M. Miller. Third row, left to right: Dr. F. H. Haugh, Dr. J. D. Richey, Dr. E. J. Marshall, Dr. M. G. Brookins, Dr. R. D. Fleming, Dr. C. R. Humbert.

STAFF OF PHYSICIANS

THE Staff of the General Hospital 2 consists of established physicians and dentists of Greater Kansas City. These men willingly donate a portion of their time, and considerable effort in order to contribute to the welfare of our people and to the training of the nurses and internes. Among them are the most outstanding figures in both fields.

Staff meetings are held on the third Wednesday evening of each month, at which time routine affairs are handled, interesting cases are analyzed, and scientific discussions are held.

STAFF OF HOUSE PHYSICIANS

Dr. A. O. Diggs—Resident Physician on Medicine

Dr. P. C. Carter—Resident Physician on Communicable Disease

Dr. O. B. Williams — Resident Physician on Urology, Proctology and Orthopedic Surgery

Dr. P. C. Carter, Dr. W. W. Hoffler, Dr. F. E. Younge.

LORENDA S. HARRIS, R. N.

Superintendent of Nurses

MRS. HARRIS received her elementary and high school education at Spelman Seminary, attending college at Western University in Macon, Missouri. She entered the Provident Hospital Training School for Nurses, and received her diploma in 1903. Her first position was that of Nurse and Preceptress at the Deaf, Dumb, and Blind Institution, Austin, Texas. Post-graduate work includes study at Mme. Yale's Institution of Special Therapeutics and a course in hospital administration at Cook County Hospital, Chicago, Illinois.

She has held the position of Superintendent of Nurses at Langston University, Langston, Oklahoma, and Wheatley Provident Hospital, Kansas City, Missouri.

In 1926 she became Superintendent of Nurses at General Hospital No. 2 in which she has served faithfully for fourteen years.

NURSE'S HOME

GENERAL HOSPITAL NUMBER TWO

AT LAST, the dream of the alumnae all over the United States and ^ our many friends is coming true. Brick by brick the structure of the new Nurses' Home rises above its surroundings, truly a thing of beauty, and something to thrill the hearts of incoming students for years to come.

The new Nurses' Home is designed to accommodate ninety-six nurses. There are single and double rooms only, as the old dormitory idea has been dispensed with. There is a recreation room in the basement, reception rooms and parlors on the first floor, dormitories on the second floor. The third floor contains dormitories with a sun porch on each side.

The old building with its memories, is no more. In its place stands the new Nurses' Home, modern down to the last detail. May it serve its purpose well. May it engender in the bosom of students many new hopes, ideas, and ideals, and may all of these ideals be fulfilled.

OUR DEBUT

An Appreciation . . . And Forecast

IT IS easier to dream than to build," but were it not for our dreams I and the generous help of our many friends, this first issue of "The Generalite" would not be possible.

We wish to express our gratitude to all who have labored with us. First and foremost is Dr. Edwin Henry Schorer, our Director of Health. He has generously placed at our disposal the facilities of the photographic department at the General Hospital, and aided in every way possible.

Dr. Duncan, Commissioner of Laboratories, has been particularly helpful and we have found his wide business experience of inestimable value.

And Dr. Fitzroy E. Younge, Resident Surgeon, has endeared himself to us by his faith in our ability and has kept us steadfast until the end. He is affectionately termed "Uncle Fitz" by the entire class.

Mrs. Lorenda S. Harris, Superintendent of Nurses, has our enduring gratitude for her influence has gone even deeper than the publishing of our book; it has built our characters.

To Miss Genevieve E. Fredericks, one of our own, we must express deep gratitude.

Her untiring efforts, patience and perseverance have been a source of inspiration to all of us.

And so we go to press at last, joyful, yet hopeful, and even prayerful.

So nigh is Grandeur to our dust,
So near is God to Man;
When duty whispers low "thou must,"
The youth replies, "I can."

We hope that our many friends will bear with the short-comings that are sure to crop up in this first volume. We hope the other students coming after us will rally to the standard, and work together to make each succeeding volume of "The Generalite" bigger and better than its predecessor. Meanwhile we proudly present our very own brain child . . . maybe "a poor thing, but our very own" . . . the first annual volume of "The Generalite."

SENIOR CLASS HISTORY

Christine McDonald President

IN SEPTEMBER, nineteen hundred and thirty-seven, twenty-three I girls, fired with enthusiasm and armed with a common desire, entered the School of Nursing of the General Hospital No. 2. Each girl brought with her the speech and customs of her state, the ideas and ideals of her home life. Each was ready and willing to contribute to their new life the fruits of her past experiences.

One can readily see the possibilities of conflict in opinions which such a group might create when brought together. We saw this too, and early in our organization made a supreme effort to live in peace, harmony and understanding.

Our officers were as follows: Christine McDonald, President; Winifred Abernathy, Vice President; Virginia Mallory, Secretary; Ollie Walker, Critic; Oussie Caldwell, Program Chairman; Genevieve E. Fredericks, Treasurer. We drew up a constitution by which we have abided throughout the three years. These officers have faithfully served for the entire period of training.

Rosalie Harris	Winifred Abernathy	Virginia Mallory	Esther Allen
Alexandria, La. San Mateo, Calif.		Kokomo, Ind.	Raton, N. M.

To the Senior Class of 1938 we were indeed grateful. They assisted us over many of the bumps which we encountered while adjusting ourselves to an entirely new life and environment. A reception was given by the seniors for us. In December, we reciprocated with a Pre-Christmas party for them. In the planning of a program, we were surprised to discover a wealth of talent in our midst.

February was a memorable month. Credits and debits were balanced and one by one we were called in for consultation.

Grades were cited and our acceptance into the school ascertained. On February 18, 1938, nineteen took the Nightingale pledge and caps were placed on our heads by the seniors, our Big Sisters.

In March Evelyn Brown became acutely ill, and on the twenty- third she expired, leaving behind her a grief-stricken class.

With little ado, we began to play an important role in the life of the school. In May, at the Student Body election, two members of the class were elected to important offices.

A hint of fall in the air and September was again with us, serving to mark the beginning of the Junior year. Classes became just a little more difficult. Ward duty responsibilities increased. Members of the class began to join various extra-curricular activities.

Elaborate plans were drawn for a Prom to be given for the Senior class of 1939. This was preceded by efforts to raise money. The sacrifice was hard work on the part of everyone. May found us prepared to meet our obligations. The enjoyment of our guests was a pleasant reward for all the difficulties encountered in order to present the Prom.

Time passed like the spin of a roulette wheel and paused . . . the last September. In our days of probation, there had developed a brain child. Many a time and again it had been stuffed away, but would always pop out again somewhere—at some opportune time. This last September it cropped out again and this time refused to

be snuffed out like a lamp light. So the publishing of an Annual, the first in the history of our school, was started.

Month after month rolled by silently, swiftly, inexorably. We've passed through the major services of the Hospital — Surgery, Medicine, Operating Room, Obstetrics, Pediatrics, Public Health—each with its memories. Now we await only the silent passing of time. We stand at the portals of our graduation, saying to one another, "We have come a long way together." And indeed we have. Silent tears are camouflaged with laughter as we realize that soon we will be saying good-bye.

Like the fagots that make a fire we built a flame that lasted for three years; now, like sparks from the same fire we scatter in various directions to carry the benefits of our training. We are sad when we realize that we are exchanging warm companionship for the wide world, but we have reached the parting of the ways. Our history as a class has ended. We have crossed the bay; before us lies the ocean.

MEMORIAM

Since Thou hast asked me to resign

The one I loved, she ne'er was mine;

I only yield Thee what was Thine— Thy will be done.

THE HOSPITAL LIBRARY

THE Library, although a recent addition to the Training School, having been established in 1937, is an integral part of it.

It has received a wide collection of books of reference, current literature and fiction through the generosity of physicians, Alumnae and friends. Occupying a room on the first floor of the main hospital, its hours are convenient for the use of the students as well as internes. Mrs. R. L. Shannon is Librarian.

JUNIOR CLASS

First row, left to right: Doris Arwine Mary Leigh, Hannah Randall, Loretta Riddle, Thelma Saunders, Etta Miles, Francine Davis, Alice Bell, Alice Wilson. Second row: Virginia Christopher, Berther Cooper, Leanna Combs, Hazel King, Lenora Harston, Willie Mae Brunner. Third row: Ethel Terrell, Welcome Manuel, Anna McKay, Ruth Anderson, Lafelda Finney, Sarah Morgan. Fourth row: Willie Mae Taylor, Leta Allen, Jewell Hill, Ruby Solomon, Sallie Williams.

JUNIOR CLASS HISTORY

WE MET officially on the fourth floor of the hospital. We became friends by virtue of things in common such as Oscar whom we were obliged to learn bone by bone . . . Mrs. Chase the unprotecting recipient of all our procedure practice, burned fingers received in cooking class, burned clothing as a result of Chemistry experiments, bunches of grapes, commas, rods and beans which we put together and called bacteriology. Then alarm clocks aroused us one hour early, and we would arise as one to accomplish some last minute studying for those awful exams.

Acceptance came along with new caps, bibs and aprons, real patients and confidence.

We have reached maturity, but our number reveals that only the fittest have survived. Now we look with friendly, sympathetic interest on those who are having the same struggle. We go about with assurance and stand ready to take the responsibility of Senior duty.

PAGE EIGHTEEN

FRESHMAN A CLASS

First row, left to right: Mary Ann Thompson, Dorthy Hannekin, Rubye Allison, Heloise Jobe, Elaine White. Second row: Doris Balance, Rosa Williams, Eva Jane Davis, Viney Connor. Third row: Hazel Teague, Bazzeline Bruce, Jimmie Hill, Mary Ellen O'Neal Fourth row: Madeline Anderson, Leola Greene.

FRESHMAN CLASS HISTORY

IT ALL began way back in January, 1939, A. D. On the sixteenth we all filed into the classroom—chronologically—as we came—we were apprehensive . . . What! Having a test so soon? Yes— I. Q. "No communication, please."

January 30th—Lolling time is over. Up at 5:30 A. M. Ho, hum, couldn't we sleep a

wee bit longer? "No," the Matron emphatically persists.

Boy! What do I see—The school bus—Is that a part of our orientation, too? "Just a minute little lady, too much make up."

The teachers are superb. One remarked: "Why do you jump up like tin soldiers every time I enter the room?" "Oh! That's a militaristic order handed down from the "nights Hospitalers."

We are really getting into our profession now (blue dress and white apron). "What do you mean we look like Dutch maidens?"

Those coeds are too flippant . . .

Finals tomorrow—Cram, Cram, or else scam, scam! Wheel That's over and nobody flunked. Last day of school. Photograph- autographs—and what have you (to remember me by).

Capping ... "I solemnly pledge" . . . Oh, I wish that lady wouldn't stare at me so. Oops! My candle went out. (Bad sign!)

After all the hulla-ba-loo, nursing is still the profession with a promise. It is still my choice.

FRESHMAN B CLASS

First row, left to right: Veriline Barsh, Ruth Johnson, Louise Bass, Lula Clemmons, Charle Mae Jeff, Hazel Miller. Second row: Agnes Gunn, Josephine Jefferson, Esther Eloise Allen, Willine Jefferson, Charline Mangrum. Third row: Artye Paige, Juanita Dial, Eva Neal Harston, Margaret Guliford. Fourth row: Odessa Keaton, Mildred Robinson, Lois Wirdlow, Clara Hodnut.

FRESHMAN CLASS HISTORY

YES, we were afraid, nervous and completely off key, and who wouldn't have been?

Everyone was measuring us with critical gaze. Instructors presented us with many bound books which all contained vague unfathomable terms, theories, and fads and still heavier assignments. In full dresses and still fuller aprons we made an unforgettable picture.

Saturday, ward practice, amounting to an alarming two hours, sent us scurrying to our rooms sore-footed with practically broken backs.

A thorough inspection and we marched solemnly to the chapel to receive our caps.

Now our world is completely changed. Everyone whom we thought so critical proved

to be very friendly and helpful. Black shoes and stockings are kind to our feet and medical and surgical wards stimulate us to take long walks on our off duty hours.

We have come, we have seen, we have conquered.

THE ASSOCIATED STUDENT BODY

THE Associated Student Body consists of all capped nurses of good standing in the institution. The idea of such an organization originated in the minds of a group of students in September, 1935. Its first officers were Miss Crystalle Maxwell, President; Miss Earline Boisely, Vice President; Miss Naomi Ford, Secretary; Miss Willie Hawes, Treasurer, and Dr. P. C. Turner, Sponsor.

The purpose is to promote self-discipline, instill into the minds of the students a deeper meaning and feeling for the nursing profession, to uphold the morale of the student group, and to take part in the judgment and punishment of the students for minor offenses.

The Student Body meets on the first Saturday of each month at which time all matters pertaining to student affairs are brought up and discussed. Miss Velma Hundley, R. N., Supervisor of Isolation, is our sponsor.

Each year the students make contributions to certain charitable causes.

The Associated Student Body is, in point of years a young organization, but it is very healthy and shows signs of continued growth.

PAGE TWENTY-ONE

OFFICERS, ASSOCIATED STUDENT BODY

Officers—front row, left to right: Christine McDonald, President; Leanna Combs, Assistant Secretary, and Thelma Saunders, Second Vice President.

Back row, left to right: Anna L. McKay, Vice President; Jewell Hill, Secretary; Winifred Abernathy, Treasurer; Gussie Caldwell, Business Manager; Rosalie Harris, Chaplain.

CHORAL CLUB AND QUARTETTE

THIS has long been one of the most interesting extra-curricular activities of the Student Body. It has been a means of self-expression and consolation.

The Choral Club and Quartette are under the direction of Mr. Lorenza Countee. With the permission of the Training School Committee these groups have made several public appearances. They also lead our morning devotionals as well as other student assemblies.

MEMBERS OF THE QUARTETTE

At the Piano—Genevieve E. Fredericks.

Left to right—Lafelda Finney, Sarah Sharp, Esther Allen, Etta Miles.

MODERN EQUIPMENT

THERE is no doubt that medicine and surgery have come a long way since man first pulled a thorn from his aching foot, or ate herbs to cure his ills. And perhaps one of the reasons the modern doctor is more efficient than the physician of earlier times is the fact that he is much more efficiently equipped to fight disease. One needs only to read a few pages of Doctor Hertzler's "The Horse and Buggy Doctor" to appreciate the difference between the old and the new.

New operating room equipment, new and improved instruments, sterilizers, etc., are featured in General Hospital No. 2. The student nurse finds that she has a heavy responsibility upon her shoulders when she seeks to understand thoroughly the working of every mechanical contrivance which is designed to fight disease. Time marches on, and all branches of medicine MUST keep in step. Modern equipment and modern methods equip the nurse to perform her duties more effectively.

-FOUR

PAGE TWENTY-FIVE

Bottom: Emergency Room

Top: Major Operating

Middle: Obstetrics—Delivery Room

PEDIATRICS

THE Pediatric Department provides medical and surgical care for children up to the age of twelve years.

This department is equipped with a sun porch and play room for the benefit of convalescing children, and a nursery which provides an incubator for premature infants.

Pictured above are triplets born prematurely in the Obstetrical ward in June, 1939.

They were transferred to Pediatrics. There they grew into normal infancy, and eight months later adopted.

PAGE TWENTY-SIX

METABOLIC LABORATORY

DURING the preliminary period, the students receive a course in Nutrition at Lincoln Junior College, which includes a study of foods and their preparation.

During the first term of the Junior year, a course is given in Diet in Disease at the School of Nursing, which deals with the study of foods in disease as well as in health.

During the Senior year, two months are spent in the Metabolic Laboratory, at which time the students put into practice what they have learned. This service is divided into five units. One student is assigned to each unit.

(1) The special diets: All the food for patients on special diets with exception of diabetics, is prepared and served by the student working in this unit.

(2) The diabetic diets are worked individually each day and served by a student in this unit.

(3) The staff trays which include trays for staff patients or students who are ill are prepared by one of the students.

(4) The food for pediatrics is prepared in the diet kitchen by another student and taken to the ward by the orderly or maid.

(5) All fluids for hospital patients are prepared in the diet kitchen by the student working in this unit.

Each student prepares and turns into the dietitian two case studies while on this service.

The students make out the menu for the particular unit on which they are working and they are checked and corrected each day by the dietitian.

PAGE TWENTY-SEVEN

SPORT activity among the nurses of General Hospital No. 2 has not been very intensive or very far reaching.

Basketball is our best organized sport. For the last three years our team has participated in the Local Women's Basketball League. Under the tutelage of Miss Joan Hamilton, '35, we won the championship in 1938, winning all of our games. Last year

under the guidance of Miss Laden, our sponsor, we again won the championship, winning eight games and losing two. This year we failed to repeat, dropping to third after losing three games out of twelve.

Tennis is, next to basketball, our most popular sport. Most of the physicians on the house staff are members of the Kansas City Tennis Club, and play regularly on the courts. Thus the nurses find no difficulty in obtaining partners for mixed doubles, although it sometimes

SPORTS

happens that the hospital schedule and the tennis schedule do not often mix well.

Cycling is another popular sport among us. The girls have made numerous trips to the various parks in the city, going once or twice to Swope Park, about eight miles from the Hospital.

Although nursing is proverbially hard on the feet and legs, several hardy nurses go in for hiking in a big way. The Liberty Memorial Hill is a favorite spot for an afternoon hiking picnic.

So we continue to keep our spirits up by some type of sporting activity. To be sure we have not yet turned out any "All-American" candidates at Dear Old General, but we do get a lot of fun, and we have the satisfaction of knowing that we are living up to the old Roman Axiom which in the original, gave us so much trouble in our High School Latin classes, "A sound mind in a sound body."

PAGE TWENTY-NINE

MEMBERS OF THE ALUMNAE

THE Alumni of General Hospital No. 2 was organized in 1917, when the hospital was known as OLD CITY.

The aim of the Alumni is to stimulate interest of the graduates in their school and to aid the school in maintaining its high standard.
