Hon Governor Stark,
Jefferson City, Mo,

Dear Governor,

I must commence my letter by complementing you on your fine job of cleaning house in Kansas City, you are surely getting the job done right. You have gone right down the line and today getting Matt Murray out of the W.P.A. was worth the money.

They say Chas. Haag the director of the W.P.A. in Kansas City is a laugh around here, taking money from the Supt. And they say if he don't get it there is no advancement and are liable to be set back.

Andy Decopolis a former bricklayer now Supt between Independence and Kansas City called ([MS. illegible] City Sewer) getting #260. Per month they had to take part of the sewer up, in the last year. Mike Melsuir likewise Chas Fisher Decopolis's time keeper knows all about it as he told some friends they were not getting it, the higher up were cutting in. Competent men get no place they haven't got a chance, Mr Louis Craige Haags assistant a close relative of Senator Harry Truman and Mr White Ariel Engineer are doing lots of dirty work, carrying out Mr. Haag's instructions it is well worth looking into.

Governor it would be very unwise to give my name as I have several relatives on the W.P.A and they would loose the jobs They don't pay off and they can't get any place.

Hoping you will see for yourself that they are money drunk in K.C.

I am one of your many admirers for doing thing and goingplace.

I am one of many

Silent Listner
