St. Clair Co.
Caplinger Mills, Mo.

Lloyd Stark,
Jefferson City, Mo.

Dear Governor:

May I as a W.P.A. worker and former timekeeper ask your worthy consideration due to the fact that we have been misled, coed and led around by the nose long enough.

Governor we have a supposed to be "Oil Inspector" whose residence is at Osceola who operates under your administration, and handles W. P. A. Politics for Tom Pendergrass and Matthew Murray. I have investigated and found bulk Oil Stations at various points where he hasn't been for 18 months. Personally I know this man to be an enemy of yours. He fought you in all your Progress. I was laid off because I would not support the "Billing Campaign. The reason I have put up with this is because I have to support my Family. Can you imagine a person with a "B. S." Degree from Springfield Teacher College.

This is a sample of what is going on in Cedar, St. Clair Co. of which I am very familiar and very well acquainted. We can't get a square deal. I am very familiar with this set-up and will assist you in any way I can. Their there is not based on Efficiency, it is anything they can get by with. Please don't quote me as I don't have any work to do. But remember I have always supported your ideas and System of State Government. And help you get any information you may desire. Would be very glad to have a personal talk with you.

Yours as a dersiving friend

(Signed) Olin Casey

P. S. Don't quote me unless you can help me.
