Governor Stark,
Jefferson City, Mo.

Dear Governor:

I don't suppose you will remember me, but I am one of the men that wrote you a letter when I heard you was running for Governor. I previously lived at Paris, Mo, close to your home town, I sure am. in sympathy with you in the way you are cleaning up Kansas City, to know we have a man at the head of our State that really has the nerve to go to the bottom and get the would be big men like Pendergast and O'Malley who have taken many a dollar away from the honest man and now as you have the police under your control, that you will clean up the Police Department, like Captain Dougherty at Station #4. This man is as crooked as any man that "ever walked the face of the earth. Just another Pendergast steeling from everyone that is doing right and letting the crooks go by. I would be glad to circulate a petition if it will help to get him out, why let such crooks run our country and get out tax money. I am a heavy tax-payer of K. C. owning about \$120,000.00 and pay \$2,000.00 a year taxes and I want my taxes to go to a good and honest cause, hoping you will do something about this at once and letting you know I am for you a 100%.

Very truly yours,
(Signed) J. R. Morgan
