Petition for Governor Stark to Send Attorney General to Kansas City  
To the Hon. Lloyd C. Stark, Governor of Missouri:

The defense in the election fraud cases in the Federal Court in Kansas City has repeatedly admitted the flagrant violation of Missouri election laws. It is commonly reported that serious infractions of other state laws prevail in our city without interference. Therefore, we, the Citizens of Kansas City, Mo., urge that you direct the Attorney General to come to Kansas City and make exhaustive investigation of conditions surrounding the non-enforcement of our state laws.

Each defendant raper bought his aquittal I ask Judge Harris this morning about the last two that had a mock trial yesterday they didnt allow any bystanders or witnesses that would of sworn upon oath that the Young Women 11-12-13-14 were truthful and told all the truth the defendants lied and did underoath lied [MS. illegible] them self with the knowledge of the defense lawyers the prosecution Assistant James E. Gordon and the Judge lied to me yesterday he said the Matron of the detention Home Mrs Brown and the pitiful little girls I tried in ever way possible to help to send these rapers to the penitentiary where they justly belong the "Judge" told me the morning that none made any objections to me as he lied yesterday to me in not letting me have my constitutional right to hear the mock trial. I ask him what was done to the rapers she sed he let them out I said Judge I saw every body and no body made a complaint against me hearing the trial. He said he did object and nobody he did make any objection to me. I said I knew it as all the girls were put in the dentention home 6 months and they tried the 3rd degree on to force them to swear falsely against me they told the truth about me then they had suffered some deal or supposed examine the the supposed doctor said they had their Hymen was ruptured

[page 3]

They ask each girl under the 3rd Degree again to lie on me but the girls were truthful and told of a dozen me that had raped them they men raper them in the presence of the other girls so all the girls had all the rest of the 5 girls because they were all witnesses for all 5 of them but the

defense said each would have been raped alone in rape and that was his only defense. I know the millions of little girls one raped without a witness and they know they must have a witness or two so they cant prosecute as the rapers word is proved in these cases

[page 4]

To be a raper but in these cases the freed the rapers just the same as if they would have been alone. I talked with and knew these girls before the attacks of rape and I knew that they always went together and never was separate when they were raped one of the rapers when he saw all five girls ready to testify against him plead guilty and was given 20 years in the pen his name is John Pack he is there now you can go there and ask him the others. They was just as guilty as he was only they lied and bought their acquittal. There is one that they havent turned loose yet he is on a 600000.00 bond. I hope you can come here and try here his name is Sprinks his trial is set for Apr 19 he has post it over a dozen times now. He attacted all the girls in pairs too

Charley and Hellen Sandstras had a home at 1609 Wyandotte St when they girls and men met and all was witnesses to each other Sandstras hired the little girls out and got money for it too. They bring brother and sister they met the little girls at the West side Junior Highschool and raped them first then solicited men that they never got in this investigation

[page 6]

to frame me up this raping had been going on by John Pack for more then ten years and Wm Leavel at 711 W 16 St for 15 years and raped hundreds of girls his landlady at that place told me she advised him that he would get in trouble and he had better let the little girls alone as she said some of the little girls told her of their being raped he had \$180000.00 and bought his acquittal too when she was married to a maned Clinton Klinge then Leavell raped her little Sister 11 yrs

[page 7]

The mothers of the raped bought revolvers guns and other weapons to try to keep the rapers away from their daughters as they tried in ever way for years to have the courts prosecute the rapers but they turned them out to continue raping.

[page 8]

Murders and turned to be free too but raping is worse there is 1000 thousand petitions being signed in an appeal to justice. But the rapers with all other crime is ruining our City[.] I have been here a life time my father and grandfather was here when it was Westport landing but law is not inforced now as well as they inforced it then by being the best shots it is getting worse ever day the courts are closed most of the time and criminals are not bothered but are protected.
