Gov. Lloyd S. Stark
Jefferson City Mo.

Dear Governor.

I see where delegations of our very best women, have been on you personally, for aid of the polls
Tues.

And to you have received several letters, and here comes one more.

The are having anything else except an honest election.

There are thousands of false registrations, and every one knows it.

If the court orders are allowed to the votes, the descent people of K.C. are graciously defeated
again!

And I do want to thank you as much for your past favors, but they

don't amount to anything at all unless you go on, the whole way with us.

Please let me insist, you and plenty of protections at the polls -- and stamp out all court orders.
Do it late tomorrow eve. or very early Tues a.m. so they can have know time to make changes.

There isn't anything they wouldn't do to win.

Kill you or I either, they have done it before, & more determined this time.

Please continue to be courageous let's slay the machine out for ever or our Great State is lost.

Sincerely Mrs. T. N. Moore
