Kansas City Mo

Governor Stark

Dear Sir, when we try to do something worth while it helps if people will show their gratitude I for one want to show my gratitude by these few lines, for your effort to give Kansas City a clean election board & an honest election

Thanks a million but the reason it went of so quietly there was no opposition workers in the field, the colation people had no active workers in the field on Election day. What they got was people determined to walk to the polls & vote against the machine, for nothing

[page 2]

Or power could stop these Dageo's if any thing or body openly oposes them but your efforts worked wonders I hope there is nothing you ask for in Mo politically that you don't get it you deserve any thing you ask for & that is what hurts Pendergast

I feel the same way about Bennett Champ Clark & our Mr Milligen thank God for men who have Courage to fight for the right, regardless, of party. Kansas Citys organization of Window tappers makes votes but awful poor reading. By the way Starks Delicious apple is my favorite.

I wish you worlds of luck

I am sincerely

Gertrude Wyatt
