

Mr. Stark, On the Q:- from a sentinel on the front. “They” (antecedent understood) have dressed up drunken bums, reprobates, derelicts, hustlers & otherwise the depraved-shister lawyers, hangers on, & morons & put “them” out to lectioneer & vote against our Governor – saying - “Stark wont get any where with anything in Kansas City or Jackson County – e’der de state ne’der der Senate.” Well, you may say, that element don’t amount to much. Remember “They” have run things here to one & thousands of them still on the job: engineered by shister precinct henchmen still on the job. If we fail Feb. 13 it will be just too bad! The committees seem to think they have things cinched. They need to beware & on their toes. So please remind the governor of the above statement & undercover efforts. They will listen to him. On the quiet – as “they” have accosted me twice for furnishing information. I fought “Them” in 1934 & 1938 & have promised me a one way ride. Clouds are gathering – great battle soon – too few realize what it means to loose Feb. 13. Great lack of interest & vision on the part of the public “Where there is no vicision the people perish.” Tell the Gov. to arouse those able to reach the people with the facts or we are sunk & all will be lost that has been achieved. I have been warned at my door after midnight:- that is what I mean. I live here for a purpose. Will [more?] soon.

The Swab.
