I would not bother TJ with this at all wait until you see him don't send him any copy

Would Change Peterson [MS. illegible] as indicated

Go over with Murphy Sr

& get his ideas

When Dr Whitsell called on me I knew nothing about him whatever had never even met him, and of course knew nothing of Mr Pendergast's intentions about the matter

It struck me that it was too soon to commence organization work of the kind and advised him accordingly.

I think it would be advisable to wait two or three months before framing up an organization.

Naturally I will see Mr Pendergast before any state or district managers are finally decided on, and I would like to get all our friends together and see if you can get a harmonious agreement about the Conduct of the Campaign.

I formed a very favorable opinion of Dr Whitsell and of course desire his friendship and support.
