Editor, "THE CALL",  
Kansas City, Mo.

My dear Mr. Franklin:

Your interesting letter of November 11th received. I am heartily in sympathy with your suggestions concerning the need of better educational facilities for the Negroes in Missouri, and will be glad to discuss with you this question, as well as other questions in which you are interested, at some convenient time.

As you can imagine, I am completely "snowed under" at this time with a great mass of correspondence, as well as accumulated business at the Nursery, which is just now at its height for the fall season. later on, I will be glad to have you come to Louisiana for a discussion of the matters in which you are interested.

Thanks for placing my name on your mailing list. Tour paper has a very creditable and newsy appearance, and I congratulate you upon it.

Very truly yours,  
LLOYD C. STARK.
