Dear Major:

I wont be one of the first thousand but I do desire to be one of the first million to congratulate you on securing the endorsement of T. J. Pendergast.

It is as I expected for T. J. knows the difference between a race-horse and a jack-ass. You can rest assured that the Totes of this district will roll up for you on election day (they would hare rolled up for YOU with or without T. J.)

I lied like a whip-dog to the New Madrid hoys shout you being in this district, but I assured them you would be around soon. I haven't seen Chili but I know he is bellowing like a Jersey bull since he has received the morning paper.

We started last week on a school house tour of the Young Democrats of Richland township here will not be a farmer around Sikeston that does not know your history by Christmas.

I want to assure you Major that I will do anything within my means to aid your cause. Tell Dornie hello, if the squirrel doesn't open this letter, read it and answer without you every seeing it.

Your friend  
Pleas
