Farmington Mo 6-24-46

Major Lloyd C. Stark

Louisiana, MO

Dear Friend,

I hope you will pardon me for bothering you with this letter but I can not refrain from sending same. I am not going to ask you to promise me a place when you are elected Governor, but I am asking for a position under you with out any promise & this is why I am asking. As you will know my wife has been an invalid for 26 yrs out of 38 which will be next Sunday June 28th our 38th Anniversary. I have spend everything I had for her & all for no purpose & now I have her here in #4 simply because I had no means to pay the chge any other place. This is no place for her in her condition as she has all classes around her as there is no scuh a thing as a private room on [MS. illegible] of the crowded condition. I am working for \$65.00 a month so you see how far that will go now days, you have known me long enough & well enough to know what I am & that you can rely on me to do my duty in any position intrusted to me so for this reason I am asking your favorable consideration when the proper time comes, which I am confident it will come. I have been & will continue to do everything I can for your support & if I do say so I have made several votes for you, I was talking to a salesman out of St Louis about you some weeks ago & he was here to day & he told me you would be elected with out a doubt & he though you would get more roster in MO than President Roosevelt so that sounds good & I hope it will come true. This man tracks S.E. MO also [MS. illegible] to understand the condition pretty well

[page 2]

I tried to get over to Iron Mountain to see you but having no car I had to chance a ride with someone else which I failed to find.

Now you need not bother answering this as I know you will not for get me when the proper time comes. I will continue doing all I can regardless of the request made.

With best whishes for you success

From you friend

F.X. Teasdale
