Farmington MO 10-23-35

Major Lloyd C. Stark

Louisiana MO.

Dear Friend,

I was over at Ironton a few days ago & talking to my friends they told me they were strong for Stark for Governor & had organized a club to that effect so that sounds good. I have been trying to organize a club here but so far have not succeeded. I was talking to my old friend Probate Judge Soviak & he is in favor of it but said he could take no active part as he is a candidate for Congress & thought it would be best for him not to take an active part. Then I talked to one of the Robert Boys who ran the Weekly Pass paper here & he said you did not need it as you would be nominated over anyone that came out. But I will talk to the other Brother & see how he feels about it & will keep trying if you think it best. I see where Pendergast was for you but I would much rather have seen you nominated without his aid or I firmly believe you could have been. Here are a great many who hate Pendergasts action since Park was elected & many hold it against you but I dont believe they will be able to do you much harm. I have a nephew who lives in K. City & I have written him to put in a good word for you to his friends. He has lived there all his life & should be pretty well acquainted I will put his address in this letter & when you are in K. C. again call on him & you will have no cause to regret doing so. I dont think he is allied with Pendergast but he

[page 2]

will do all he can to help you as I have asked him to do & I know he will listen to me. So anything you care to have me do let me know & I will try & do so. Of course I dont want to make to much noise under the circumstances as my position here would not hold good. But I will use every means to help you & have written several of my friends in different locations asking them to recomend & talk for you on all occasions Hoping this finds you well & with best wishes from

Your friend
