Kansas City MO

Aug 21-39

We are leaving Wednesday Aug 23<sup>rd</sup> for a 2 week's vacation in Hot Springs Ark by way of Monett where we will spend Wed night with my son R D Lawson on Route 1, then my husband says we are to Route through Springfield MO. A few things has happened lately been reported to Judge Southern & chief o police L. B. Reed. My husband is very solicitous in taking me out alone for a boat ride & swim while at Hot Springs Ark & I canot swim & well God will go with me & protect me.

Now is he relaying messages in Springfield, for the Machine

[page 2]

Klan here! Much I could tell you but no use. I'll just say, I still fear him & because last written when he thought the machine Klan was in power he tried to kill me & was terrible cruel to his blind sister as well as me & tried to get rid of her allso at this time he was sure the law would protect him & now I am sure because of all that went on here in this ward Saturday & Sunday, that he is either a willing tool for the machine or an unwilling tool I am reporting to L B Reed to day so sorry to say its Wife against Husband, but when a man tries so desperately to kill me, its not a very great love.

[page 3]

then while I was in Springfield I received 2 mysterious phone calls the day I was so desperately poisoned & it pumped out of me & one let me understand over phone that there was 20 grand over my head ask me if I knew it, I said no.

So maybe that's why Mr TJ Cummings was so cruel to me last winter maybe he was in a hurry for that twenty grand. Maybe that's why he is so anxious to get me into a boat & to get me into water while at hot springs. I wanted to stay at Monett with my son while he took a vacation but he said no, he is so thrilled over the prospect over

[page 4]

of him in the near future having the money to build an oil station & cabins & he has not 1 dime now toward it that I know of. Well the machine Klan is of the underworld & fighting desperately to hold on and Springfield police would give any amount to have me killed.

God truly has assisted me in this fight & protected me to fight this cruel evil Klan that ruined my home & drove me into the world. Still I fight on & on for the uncovering of this machine Klan. Ask L. B. Reed what I have just told him. The forget me not Ladie.

Lonely & heart broken
