Dear Governor:

I am sending a copy of this to the Star: "I demand that you make those responsible to you preform their duties or resign. Every School boy in K.C. know crap game & black jack games are being run wide open[.] If Otto P Higgins does not know it when he isn't capable of holding his position. If he does the should either do his duty or resign & quit obtaining money under false pretenses. He should be removed. McKittrick closed out the slot machines. Why didnt he close up the real gambling? Who is getting all the

"take". Certainly not the cap on the beat, his superiors would stop that. Then just how high does it go? It should show up in some ones income tax report, if not Page a G man & those in the know say the take is larger since closing up south of 31st.

So governor do that which is your duty by the oath you took & the voters wont forget.

I wont sign this. I dont want to be silenced yet & I'm going to continue until they are closed. We dont want gangers running the government.
