My dear Sir:

This will acknowledge receipt of your letter of October 8 concerning alleged irregularities in Kansas City, and you may be assured that the Election Board has been directed to use every means to see that Kansas City has a clean election, and I think it will have.

I am sure the situation there is not as it was in 1928 when Democratic voters were herded into basements by the police and drugged, so that they could not vote. Did you cull the attention of the then Governor to the situation?

Very truly yours,

Governor
