

105 West 67 Terrace
Kansas City, Missouri
August 3, 1933.

Hon. Guy B. Park, Governor
Commonwealth of Missouri
Jefferson City, Missouri.

Dear Governor Park:

Allow me to express my appreciation for the proffer of a state job in the department of food and drug inspection, which has come to me through the patronage of Mr. T.J. Pendergast and upon the personal recommendation of Mrs. Henry N. Ess.

Mr. James Pendergast left the city for a ten-day vacation on the next morning after advising me of the above-mentioned job, hence I did not have opportunity of receiving specific instructions as to entering upon the duties of the position.

I phoned him my acceptance before he left town and he said he would get in touch with me immediately upon his return from his vacation.

In the meantime I desire to learn more about the position in question and with this in view we plan to drive down to Jefferson City Saturday of this week and shall hope to be able to see you for a few moments, should you be in your office.

Several of my friends have expressed confidence that I shall be able in due time to prove my worth of advancement in the service of the State and I am anxious to have this opportunity of beginning in any sort of a position that is available.

Most sincerely yours,
Robt. A. Cummins
