CAPITAL AND SURPLUS \$50,000.00

Parkville, Mo.

October 20th, 1933.

Hon. Guy B. Park.

Jefferson City, Mo.

Dear Governor Park;

I hesitate to write this letter, for I well realize that you are bothered, every day with people seeking appointments for jobs in your various departments, however, I would appreciate an expression from you regarding the following.

Mr Brother John, it seems has been promised an appointment by Mr T.J. Pendergast, as an inspector in the food and drug department in Kansas City with your approval, and Mr Pendergast told him that he would ask that you take this out of his list for Kansas City. It seems that John was to see him last week, and he told him on account of the shortage of funds, they were unable to make any appointments in this department until additional funds for same were available, but that he would keep his name on his list for that appointment.

John was worried for fear that you might make some appointments in this department in Kansas City, and he would appreciate it very much if you will keep his name in mind when these appointments for the balance of that force is made, or if he could get a job on that department, he would work, until funds were available, if it is handled that way.

Thanking you in advance for keeping him in mind if you should make any appointments, I beg to remain,

Very Respectfully,

C. P. Breens
