My Dear Governor, I would like to know why the Demcorats that have been on the firing line have not received some of the plumbs.

In Mr Wilson's campaign I almost came to blows with Mr Dearmont and his henchman Mr Oak Hunter as they attempted to spread their propaganda about, Mr Pendergast.

I made it so warm for them they did not take up their posters in our community.

I have always been true to my party, and its candidates thinking they was always better than any Republican. I made application when you was elected for house Physician

at Booneville Reformatory but was unsuccessful, now that you have the appointment of 14 more Physicians I would appreciate your giving me consideration.

I am much in need as I defend mostly our farmers and they are all brok at present.

As Mr Roosevelt's slogan is to help the needy, I am sure if you investigate you will sure place me in one of our institutions.

Ask Senator Truman if I did not carry my township overwhelmingly for him.

I am not sending any credentials as I sent you a number 3 yrs ago from Lozier, Harry, Hammitt, Doyle, Levy, and a number of others.

Respectfully
Dr J. P. Alle
