Willow Sp Mo 8/5/36

Mr Guy B Park,
Gov
Jefferson City Mo

Dear Sir:

We has been taught since time immemorial that procrastination was the thief of time. What better evidence can be asked to support that theory than the pilfering of more than Eighteen Months in adjudicating the recount of the St Louis ballot boxes?

What may be said of that period of your indifference in exacting a purge of the registered voters in the St Louis primary? Where the dead had been resureckd [resurrected] to vote and the hopeless insane were [MS. illegible] from residences they had been taken from this years since and confined in the Asylum. Some of whom no doubt are dead but when ghost haunted the Machine until they were qualified to vote in St. Louis.

What of this years that ensued in the settlement of the impounded insurance fraud and conscription of them by Mr OMalley going for New York to get Pendergasts approval of his scheme to defraud the premium payers of 80% of the Courts award to them. Where were you and What were you during that deal?

Who appointed O'Malley. Who was he presumed to take advice from? Was it you or Pendergast?

[page 2]

What of your self appointed Director of pensions Allen M Thompson. Where was he and what was he doing that he had been able to Certify only 16000 pension until the heat was turned on him and two days later had 30000 old age pensions in process of Certification.

And in the face of that record we are informed that you aspire to a Federal Judgeship.

You who permitted the helpless Aged ones to suffer what you might gain acclaim from he who palmed you off on the papa of Missouri as Gov. but in fact one his puppets.

You who journeyed to the Kentucky Derby in guest of a Col. Commission and the spot light of publicity while the Old aged and unemployed suffer.

That you are doomed to disappoint in the expected Federal Appointment there is no doubt. Not the slightest.

Heaven and Earth will be moved to thwart your selection enough Democrats and Republicans through out the land will block it and that of any others Who is a supporter and fool of Pendergast.

[page 3]

You who showed [MS. illegible] [MS. illegible] [MS. illegible] the law knows that a plea of ignorance is not accepted in law.

You are also Cognizant of the fact that one who acts through an other is asking through himself. And what his Agent may do in his stead and place is as binding as tho he performed the act himself.

And so it is that We the people hold you strictly to account for the acts of those you delegated power to.

Of course you will assign this to either my mental frame of mind or that I am disappointed in search of Pendergast blessings. But wait – don't act too speedily. Lock this up and see how true it runs to form. I suppose you get the Race Track Gang. You at least know it better than the plea of the destitute.

No I am not an applicant for a pension thank God for that. Tho I am supporting for aged souls who are and they are in no wise related to me. So you recall Halsted L Ritter of Florida?

We do,

Paul A Marye
