Gov. Guy B. Park,
Jefferson City, Mo.

Dear Sir:-

I have tried to believe, since you became Governor, that you were above the clutches of the disgraceful Kansas City Machine controlled by Pendergast but your indifference toward the shameful conditions now existing there convinces me that you are in full accord with this dishonest voting RACKET. I want you to know that it is hard for me to believe, knowing you as I had before you FELL IN WITH THIEVES, that you would allow such dishonest and disgraceful conditions to continue when it is within your power to make an end to it and at the same time show your friends, so many of whom are very much disappointed in your stand on this condition, that you, and not Tom Pendergast, are Governor of Grand Old Missouri.

In looking back over the last three and a half years I am almost ashamed that I ever voted with the Democratic party- and I am looking forward to Nov. 3rd. when I shall vote for a REAL AMERICAN ALFRED M. LANDON. The condition as now existing in Kansas City and a few more of Roosevelts spasms of misrepresentation are certainly going to help Mr. Landon ON TO WASHINGTON.

How can your conscience permit you going to Kansas and speak for Roosevelt until the Kansas City condition is cleaned up.

Yours truly
G. M. park
