

Boonville Mo.

Nov. 10th 1936

Governor Park:

While urging the rest of us, who give and give AND GIVE, to give to the Red Cross why don't you urge the Pendergast politicians to give the pathetic old folks a little more than nine dollars per month?

Don't you think nineteen dollars each is just a bit too much for them to take away from then? It makes things just a little too apparent, like the 60,000 stolen votes in Kansas City and the 9,000,000 plurality for Roosevelt.

The people in America today who believe in decent government have just about as much chance as a man in Germany or Italy. I am for the first time in ay life, ashamed that I live in a country where a President can wangle five billion dollars of the people's money from a supine congress and then turn it over to crooked politicians to buy his election.

I am not an old person who wants a pension, nor am I a young and un-employed person who cannot get on relief, but I am one of the sixteen million HONEST voters who regret that Roosevelt has adopted Pendergast's political tactics.

Disrespectfully yours,

Mrs. A. P. Wolf

10 Riverside Place
