My dear Senator:

When I was in Kansas City you told me that you thought that Colonel Pendergast felt very kindly towards Clarence Cannon. I hope the enclosed letter will meet with your approval. If you can quietly assist I hope you will do so.

Confidentially, Dearmont was up here last week and while he made a very good impression I think we can handle the situation all right, but I suggest that you get over this way before long, also Troy.

Clarence Cannon can do you a lot of good in this section of the State, so do what you can for him.

Most sincerely yours,

Lloyd C. Stark
