Honorable E. Y. Mitchell
Assistant Secretary of Commerce
Department of Commerce
Washington, D.C.

Friend Mitchell:

I certainly want to congratulate you upon your wonderful address that you made in our city last week and the courageous and fearless stand that you took against the corrupt political machine (although they call themselves Democrats).

In the past thirty years that I have lived in Kansas City I have been so thoroughly disgusted with the Pendergast tactics that I have been almost ashamed to acknowledge that I was a Democrat.

I am very sorry that I did not know that you were in the city until you had checked out of your hotel and left. I would like very well to have had a chance of meeting you, if only for a few minutes.

When you are expecting to come to Missouri again and it would be possible to spend a short time with me, will you please try and advise me by mail when and where you will be at any certain time. If you are coming to Springfield and not to Kansas City, I would gladly run down there to have a short conference with you.

At any time that you find a place that I might fit in as a Federal Employee, I would be very glad if you would advise me of the fact, as I would like now more than at any other time to contribute in my small way my service to the Government, for I feel that any citizen working with the Administration as it now is under the new deal should be proud to be recognized as a Government Employee. I am no Saint, but I have always felt like a good many of the people connected with the local administration here should feel like they should apologize for their occupation.

If you should have time to figure out some vacancy that you think I might be able to fill satisfactorially and would write me, I would come to Washington for a conference with you if it were necessary.

Would be glad to hear from you at any time and more than glad to meet you when you are back in Missouri again.

Sincerely yours,

CHW:MFL

C. H. Willaims
