

NOURSE OIL COMPANY

KANSAS CITY, MO.,

April 9, 1932

Representative Ralph F. Lozier, c/o House of Representatives, Washington, D.C.

Honored Sir:

One of the most distressed industries in the United States in these days is the oil and petroleum industry, already weighed down by state and city gallonage taxes to the extent that it very much hinders individual development.

This Company wishes to enter a plea with you to protect the interest of your constituents by opposing any bill for rendering a U. S. Revenue Tax on gasoline or lubricating oils for the reason that it will work a great hardship on the petroleum industry already in desperate straits.

Very truly yours,

NOURSE OIL COMPANY.

Dave Morris
