Dear Sir:

A friend of mine just graduating from High School and also in his second or third year of Kansas City Law School, would like to get on as a Deputy Assessor.

He is not only a capable young fellow, but he is working hard to get through school and helping take care of his mother.

If there is anything you can do for him, I would more than appreciate it.

Would you suggest that I write Mr. Bunker? I shall be glad to talk to you about it.

Yours very truly,

M.H. Siegfried
